### APPROVED DISTANCE EDUCATION CURRICULA

This approved distance education curricula list is made public by the Virginia Department of Education, Department of Career, Technical, and Adult Education.

It is required that all AEFLA Title II funded programs in Virginia offer or collaborate to offer distance education services to students who are seeking or may benefit from such services. All distance education curricula approved for use by the Virginia Department of Education, Office of Career, Technical, and Adult Education (the Office) must be appropriate for specific adult education populations, provide accommodations for learners with disabilities, and present research-based evidence of both reliability and validity. As new distance education materials become available, the Office will review and consider the impact of approving them for state use and reporting. A review of approved distance education materials will be conducted as needed.

The Office maintains a Distance Education Curriculum Review Panel to review and recommend approval of distance education curricula and materials. If programs wish to use curricula not identified on the approved list for the purpose of distance education, they must submit the new curricula to the Distance Education Curriculum Review Panel for review and approval before proxy hours may be reported.

This list of approved distance education curricula includes the following information for each product:

- Curriculum Name: The full, official name of the curriculum
- Target population: The adult education population for whom the curriculum is most appropriate (e.g. Adult Basic Education (ABE), High School Equivalency (HSE), English as a Second Language (ESL), career pathways)
- Year Approved: The year the curriculum was approved for reporting distance education hours into the state management information system (MIS)
- Delivery Mode: The media format(s) by which the curriculum is delivered (e.g. print, computer, mobile device app, video)
- Proxy Hour Model: The method used to assign learner proxy hours: 1. Clock Time - This model assigns contact hours based on the elapsed time that a learner is connected to or engaged in an online or stand-alone software program that tracks time. 2. Teacher Verification - This model assigns a fixed number of hours of credit for each assignment based on the teacher's determination of the extent to which a learner engaged in, or completed, the assignment. 3. Learner Mastery - This model assigns a fixed number of hours of credit based on the learner's demonstrated mastery of the content of a lesson.
- Proxy Contact Hours Criteria: Guidelines for calculating proxy contact hours based on proxy model
- Publisher Information: The name and contact information of the publisher or producer of the curriculum
- Description: A brief description of the curriculum's content and features

Curriculum Name	Target Population	Year Approved	Delivery Mode	Proxy Hour Model	Proxy Contact Hours Criteria	Contact Information	Description
Adult Basic Education (ABE) Academy	ABE	Updated 2020	Computer, Print, Mobile Devices	Clock Time/ Teacher Verification	Clock time for online programs and virtual tutor lessons. For the workbooks, the teacher determines the percentage of each lesson completed and the time associated with the lesson.	<a href="#">Essential Education</a> 895 NW Grant Avenue Corvallis, OR 97330 <a href="#">Jason Guard</a> 800-390-9307	<i>ABE Academy</i> is a series of resources to help maximize learning gains. <i>TABE 11/12 Academy</i> and <i>CASAS GOALS Academy</i> are online programs that use an adaptive learning system to create personalized learning plans for each student. <i>ABE Essentials + Virtual Tutor</i> uses instructional workbooks and QR codes that learners can use with their smartphones to connect to interactive lessons, quizzes, and practice tests.  <b>Product has a Spanish translation tool available.</b>
ALEKS®	HSE	2015	Computer	Clock Time	The system tracks the time on task for each activity completed. The time on task for each activity is counted as proxy hours. After a preset period of inactivity, the system stops counting time on task.	<a href="#">McGraw Hill Education</a> P.O. Box 182605 Columbus, OH 43218 <a href="#">Kevin Curran</a> 800-338-3987	<i>Assessment and Learning in Knowledge Spaces</i> (ALEKS®) is a web-based assessment and learning system. It uses adaptive questioning in all courses to determine what a student knows and doesn't know.
APEX Tutorials	HSE	2018	Computer	Clock Time	The system tracks the time on task for each activity completed. The time on task for each activity is counted as proxy hours. After a preset period of inactivity, the system stops counting time on task.	<a href="#">Apex Learning</a> 1215 Fourth Avenue, Suite 1500 Seattle, WA 98161 800-453-1454	The tutorials are personalized for each student's academic needs while targeting concepts covered in the GED® tests. It builds student's knowledge and skills through an interactive and research-based approach to direct instruction, practice, review, and assessment.

This can be used as a teacher-aided instructional tool or as a one-to-one tutoring resource with minimal guidance needed.

### Special Program

The [National External Diploma Program \(NEDP\)](#) is a competency-based, applied performance assessment system leading to an Adult High School Diploma. Administered by trained local or regional adult education program staff, the blended assessment evaluates the reading, writing, math, digital literacy, and workforce readiness skills of participants in life and work contexts. The flexible, self-paced program requires participants to complete a series of online assignments which are tracked by an in-system clock and may be captured as distance learning hours. The time students spend completing online assignments are coupled with regular face-to-face meetings with an Advisor/Assessor and may be counted as contact hours. Only approved NEDP agencies that have completed the required training may offer the program. NEDP is owned and developed by Comprehensive Adult Student Assessment Systems (CASAS).
